Multis

Multipurpose greases and beyond

For **automotive** and **industrial** equipment

TotalEnergies

Summary

- A local partner with worldwide presence
- A complete range for extreme temperatures & heavy duty
- Why choose Multis greases?
- Five good reasons for choosing TotalEnergies Lubrifiants

Multis greases

A complete range of lithium greases covering **more than 80 %** of automotive and industrial applications.

From standard multipurpose to specialty greases, available in a wide range of NLGI grades.

TotalEnergies

A Local partner, a worldwide presence

STANDARD

Multis EP
Multis XHV
Multis MS

EP = extreme pressure additive
XHV = extra high viscosity
MS = MOS2 solid additive

PREMIUM

Multis Complex EP
Multis Complex MHD

Longer greasing intervals thanks to outstanding stability at high temperature and in wet conditions.

SPECIALTIES

A full range of multipurpose products with specific performance.

Multis Fil EP
Adhesiveness

Multis HP Moly
Extreme load for mining industry and off-road applications

Biomultis EP
Biodegradable synthetic ester

Summary

TotalEnergies Lubrifiants:
your preferred supplier providing
a full range of high quality greases.

Our commitment is to **consistently support our customers** with the development of innovative and efficient solutions.

LOW TEMPERATURE AND LIFETIME PERFORMANCE

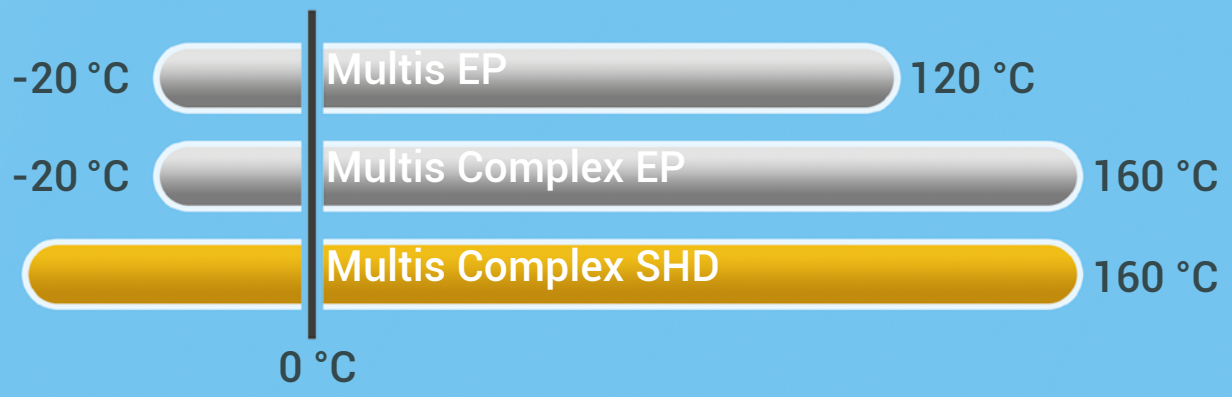

Multis Complex SHD

Synthetic heavy-duty greases
for extremely low temperature.

EFFICIENT

Multis Complex SHD range is formulated with PAO base oils covering extreme temperatures ranging from -50 °C to 160 °C. These heavy-duty greases have an optimal pumpability to be used in artic conditions.

OPERATING TEMPERATURES

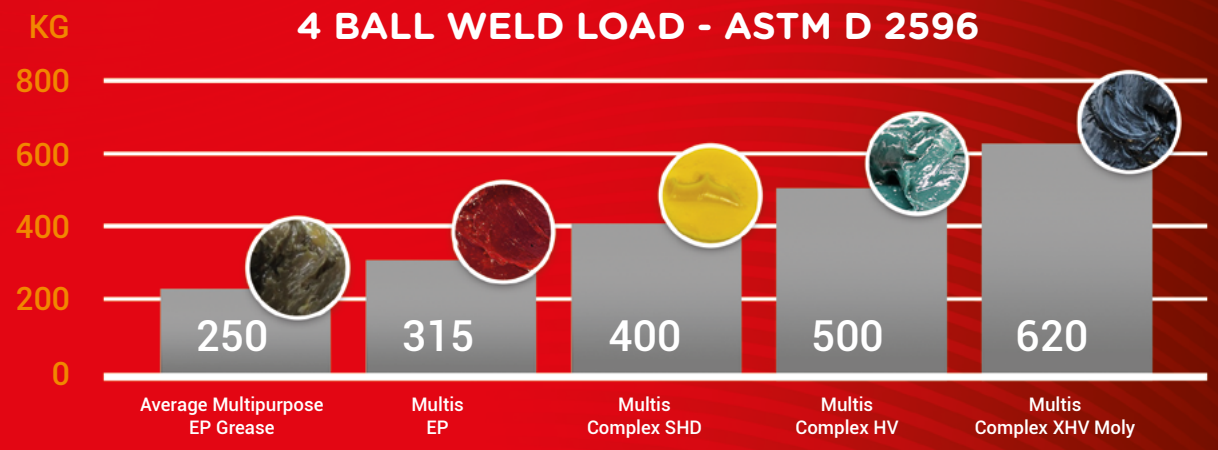

EXTREME LOAD FOR HEAVY-DUTY

Multis Complex HV
Multis Complex HV/XHV Moly

Black heavy-duty greases for
extremely loaded applications.

STRONG

A COMPLETE RANGE FOR HEAVY-DUTY

Multis greases exceed extreme pressure market requirements to extend equipment lifetime.

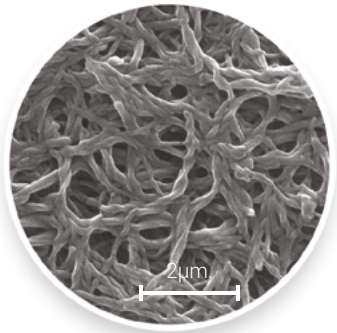

Multis beyond multipurpose

WHY CHOOSE A COMPLEX GREASE ?

Save on CO_2 and operational costs

Multis Complex greases give excellent performance at high temperatures. They are more durable and reliable than standard lithium greases. By using Multis Complex range, the consumption of grease is significantly reduced.

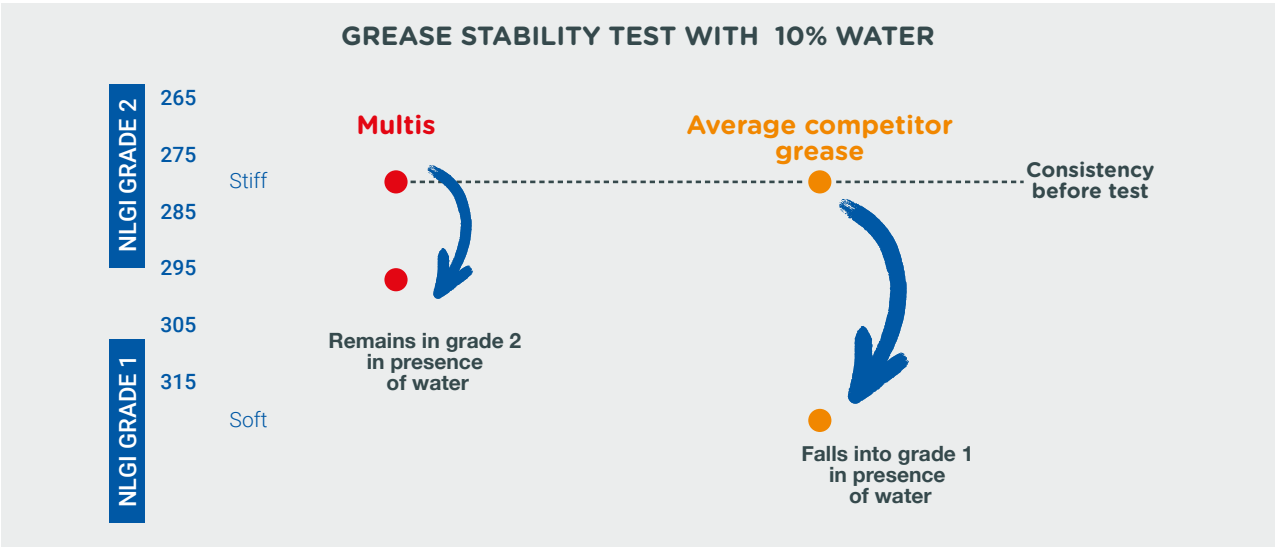

Microscopic view of complex thickener

EXCELLENT BEHAVIOUR OF MULTIS RANGE IN THE PRESENCE OF WATER

Superior stability under wet service conditions

When stability in the presence of water is required, the right amount of calcium is added to the lithium based thickener to boost its performance.

Lithium/Calcium greases are fully compatible with Lithium greases.

A major player

With our production, supply chain and commercial presence in more than 160 countries, we deliver a full range of lubricants.

Support and partnership

Thanks to local technical presence, we provide a high level of service to optimize your Total Cost of Ownership.

5 good reasons for choosing TotalEnergies Lubrifiants

References & OEMs

TotalEnergies Lubrifiants cooperates with equipment manufacturers to create high-technology products for optimal performance and production of your machinery.

Innovation & Research

TotalEnergies Lubrifiants invests in biotechnologies to find the most suitable components to reach energy efficiency through formulations designed in our Research Centers.

Quality and environment

TotalEnergies Lubrifiants ISO 9001 and 14001 certifications are the guarantee of a long term commitment to quality and environment. From the initial design stage, our R&D teams seek to develop products that minimize toxicity risks and environmental impact.
